Customer Reviews

This plastic laminated sheet is completely weather-proof. Its ideally suited to take with you on your boat to help you identify what fish you bring up from the depths. It only contains the most common fish, however, skipping over most baitfish and many non-food fish.

Bought for my husband for his birthday he keeps them in his tackle box.

My oldest son is teaching at a Boy Scout camp on the Oregon coast for the summer, so this came in real handy. He likes it's durability, attractive color and selection of fish for scouts interested in learning for a Nature merit badge and an Oceanography merit badge.

If it looks like a one of these fish, it probably is.
