The Red Wolf's Prize begins with Lady Serena of Talisand pondering her future. She has received word that King William decreed she is to wed the new Norman Lord of Talisand, who should be arriving any day. But, she knows that she could never love a Norman who battled his way across England and helped his king conquer her and her people. She knows her brother is to the north, in Scotland, and is determined to leave Talisand in order to reunite with him. Although she will miss her people, she knows she must leave to escape her fate. She would have done well to know that fate is a fickle mess sometimes. Sir Renaud, and his knights are exhausted, having fought across England for what seemed like forever. Once they are given their leave by King William, they head to Talisand and are pleased with the sight before them. Even though the people seem nervous, they are welcoming to Renaud, now Lord Talisand, and his fellow Normans. It doesn't take Renaud long to realize that his promised bride, the beautiful Lady Serena, is not in Talisand and sends a contingent of his men to search for her. Good news? They find a small group of men and women and bring them back. The bad news? Lady Serena is nowhere to be found. However, there is a very attractive servant girl, Sarah, who catches the Lord's attention and when he tries to woo her, things don't go quite as he'd have liked them to. As Lord Talisand becomes more comfortable with his new people, and they with him, he starts noticing that some of his men and some of the women of Talisand are growing more comfortable with each other as well.

WOW! WOW! WOW! The Red Wolf's Prize is an absolutely spectacular medieval read! Totally got swept off my feet! Loved it! Beware this book is definitely one for the keeper shelf as it was captivating, fascinating and yet charming and enchanting at the same time! I love when medieval romance fiction authors incorporate some real history in their unique, original, imaginative books. Which is a big part of why I love reading historical romance genre so much! This book was fast paced with many twists and turns which I personally love and makes a really 'fun read. This is my first time reading Regan Walker, but it definitely won't be the last, I really love her style of writing. This book is set in medieval England 1068, a couple years after the infamous conquest which earned him the name William The Conqueror. When King William I, the Conqueror and Duke of

Normandy has pretty much conquered England, but still needs to put some rebellious Saxon's in their place that still won't accept him as King. As he still wants to put them in their place and puts his stamp all over England by building these humongous castles. This is to remind everyone who is the King they must swear their fealty and allegiance to. He awards the Saxon's titles, lands and sometimes their heiress daughters as well to his Knights, as rewards for being ever faithful and fighting for him. In this book the hero is Norman Sir Renaud de Pierrepont also known as (the "Red Wolf") after killing a wolf with his bare hands and always wearing the red pelt in battle which most of his foe's tried to avoid as he has the reputations of being unbeaten and fearless warrior in battle.
