Seaweed Soup (Great Source Mathstart)

Synopsis

It's slimy. It's smelly. Its green and it's gooey. It's seaweed soup -- and it's Turtle's favorite lunch! Turtle has made enough seaweed soup for everyone. But it looks awful and smells worse! Nobody wants to even taste it. How can they tell Turtle without hurting his feelings? As Turtle serves lunch to his reluctant guests, young readers can learn about matching sets (also called one-to-one correspondence) by keeping track of all the different bowls, cups, spoons, and napkins on the table. Lighthearted art and a surprise ending make this a story readers will eat up.

This book is wonderful. My 3 yr old and I both love it. She loves the story so much that we actually act it out with her toys. The basic story is that turtle invites his friends over for lunch, but everyone thinks they will hate the seaweed soup... until they try it. My daughter finds it funny that the clam thinks turtle is mad at them for eating it all. Even if you put the math part aside, it's a great, simple story and very well written. The illustrations are cute and funny too. The educational aspect is an added bonus.

Before he was born, I bought my son "lemonade for sale" which is one of the books in this series.

He loved it and so did I. I have since bought him 6 other Stuart J. Murphy Math Start books. He puts them in a big stack and brings them over for me to read them all to him. He's only 23 months but already loves numbers! What else could a mom want?

This was the first Math Start book I ever purchased, and am still very pleased with it. My 4 year old LOVES it, and doesn't let me skip any of the questions at the end of the book. He has now started adding after this book, and loves to set the table and count everything he has put out. Great book ,perfect for his age (4 and a half) Loved it!!

This is such a wonderful, sweet story that goes way beyond math. The turtle is incredibly kind and unselfish, continuing to put his friends first, and his friends go out of their way not to hurt his feelings and so try his soup. It's also a nice reminder that your home doesn't have to be in perfect order to have your friends over!

My daughter LOVES this book...as does my husband ;) It's turned into one of our staple bedtime books, it's loved so much! Very clever story and a fun learning tool.
