Leah Remini: My Escape From Scientology

Synopsis

This People Spotlight Story explores Leah Remini and her escape from Scientology. This is a reproduction of a story that appeared in the November 16, 2015 issue of PEOPLE magazine. The story of Leah Remini's involvement with Scientology—“a faith founded in 1954 by science-fiction writer L. Ron Hubbard”—begins in Brooklyn's working-class Bensonhurst neighborhood, where she was introduced to the religion by her mom. More than three decades later, Leah summoned the courage to leave the church—“something few celebrities at her level of fame have ever done before and almost none have ever talked about.”

Customer Reviews

It was quite sad that you feel you have to escape a cult/religion and lose your friends and possible family members....Kudos to Leah for having the strength to do so!

This is not the full book that Leah remini wrote. This book is nothing but a very short story. It may actually be shorter than the people article written about her experience. It's a waste of a dollar.

I always wondered what people saw and what attracted others to want to join this cult. Leah gives

us an inside view of what the real objectives and motives for this group really are. Good and easy read.

This is NOT the book written by Remini, but rather a short article about the highlights of the story. It's deceiving that it uses the same cover photo as the book. It would be helpful if that had been indicated anywhere in its description.

So much evidence against this cult. Why won't the government go after them? Backlash false lawsuits from Scientology should not stop anyone. I am glad that she got out, I can't imagine being outspoken and not speaking up at the atrocities committed by its members. Cruise needs to go to jail for slave labor.

It isn't a long very in depth article and centers too much on back and forth hearsay between Remini and the Scientology church. But with any back and forth there is the truth in the middle. I believe based on this read that the Scientology cult is a dangerous one and its peaked my interest to read more.

Meh. It's a magazine article. I didn't realize that when I bought it. I had wanted to buy the book and bought this by accident. It made the story seem super watered down and like she just didn't like Scientology the same way that someone doesn't like Indian food or gardening or cats--a preference instead of the life-consuming empire that it has grown into.

Fabulous and motivational read. Remini is an example to us all who need to get unstuck from the binds of abusers.
