Classical Banach Spaces (Lecture Notes In Mathematics)

Synopsis

Springer-Verlag began publishing books in higher mathematics in 1920, when the series Grundlehren der mathematischen Wissenschaften, initially conceived as a series of advanced textbooks, was founded by Richard Courant. A few years later a new series Ergebnisse der Mathematik und ihrer Grenzgebiete, survey reports of recent mathematical research, was added. Of over 400 books published in these series, many have become recognized classics and remain standard references for their subject. Springer is reissuing a selected few of these highly successful books in a new, inexpensive softcover edition to make them easily accessible to younger generations of students and researchers.

Book Information

Series: Lecture Notes in Mathematics (Book 338)

Paperback: 188 pages

Publisher: Springer; 1996 edition (August 22, 1973)

Language: English

ISBN-10: 3540064087

ISBN-13: 978-3540064084

Product Dimensions: 6.5 x 0.6 x 9.2 inches

Shipping Weight: 12.8 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars (See all reviews) (1 customer review)

Best Sellers Rank: #2,476,513 in Books (See Top 100 in Books) #68 in Books > Science & Math > Mathematics > Transformations #20709 in Books > Textbooks > Science & Mathematics > Mathematics

Customer Reviews

This book is an excellent survey of Banach Space Theory, and an invaluable resource. It's too terse, but then again, most reference books are.
