# Next Stop Pacific Ocean: The Story Of A Couple Cycling Through The US

## Synopsis

Quitting your job and leaving everything behind to cycle across the country without training sounds crazy, right? Not for a young couple who left New York with no more than four bags to bike across America while sleeping in churches, fire departments and bike shops. This book will teach you: How they followed the Transamerica Bicycle Trail and Why they decided to leave it. Why they had to spend one night in jail. Why cycling 3,500 miles over two mountain ranges, into prevailing winds, with 40 pounds of gear is not that difficult. How you can experience the beauty of the US by bicycle and What gear you need to survive along the way. Written in diary form, Next Stop Pacific Ocean will put you in the shoes of a couple discovering the states of Virginia, Kentucky, Illinois, Missouri, Kansas, Colorado, New Mexico, Utah, Arizona and California on their bikes.

## Customer Reviews

I had trouble putting this book down after starting it. Following the journey of this young couple through the United States inspired me to think about a similar adventure. Overall anyone who has an interest in bike traveling or touring will love this book and someone REALLY thinking of going on the same journey will appreciate the packing list and route details in the back of the book.

Emotionally and powerfully written. It's great to get to be part of one awesome experience with all its great and challenging parts. The story takes you along, gives you insights and background information. In addition you get to interact with the author not only by being part of this journey, he asks you questions and actually wants to hear your answers and get in contact. To me reading the story of Martin and Ashlin was very motivating when it comes to meet ones boundaries. Thanks sharing this experience.

Such an amazing story! Their journey inspired me to get out and explore and talk to new people. An easy read and truly inspiring. Their quote really stuck with me: "A stranger is just a friend you haven't met yet."

Very nice book. It is very authentic and inspired me to do the next long distance road trip.

Great at this time in our country when the media highlights so many problems. Very uplifting to hear that small towns still embrace strangers. Remarkably they made the trip without major problems. Makes me proud to be an American
