Bigfoot, My Terrifying Encounter

Synopsis

This (short read) book is about an encounter I had with the creature commonly known as Bigfoot in a remote northern part of California state in 2003. Before that night I thought Bigfoot a remote possibility. I also thought I had a good marriage, confidence in all areas of my life, and never thought it possible to wet myself in fearâ and not realize I was doing it when it happened. I donâ™t know what to believe when I hear of others whoâ™ve had an encounter even close to mine and actually want to go back into the woods to see the creatures again. Are they lying? Are they that different than me? Was their encounter different? All I know is thereâ™s no way in hell I would step foot in those woods again. I have no desire to see those creatures again. They didnâ™t feel threatening or violent, but I was terrified and still am when I think of that night. That night changed me profoundly and in ways I never thought possible. Think twice before you go looking for the giant wild hairy man because you might just find him.

Customer Reviews

Quite scary. Can't imagine the level of fear the author felt. I will soon be moving to a cabin in Pierce

County Washington pretty far out in the wilderness. I will make sure all of my curtains and blinds will be shut everyday before the sun goes down. I love nature and animals and hope to see plenty. I think I would like to see a Sasquatch from a distance in the daytime...but I think I would go into cardiac arrest if I seen one looking into my window at night. Or one turning the doorknob in the middle of the night. (That actually happened to an acquaintance of mine) Maybe I will ask my husband to work day shift instead of nights.

This little book is a very vivid Bigfoot encounter. The encounter terrified the author and he still has a difficult time dealing with it, even having to see a therapist and face the loss of a marriage. This man has some serious trauma. That being said, he attempts to give some information on Bigfoot and comes to several ridiculous conclusions. He thinks that very few people have seen a Bigfoot, when in fact hundreds of people see them to this day. Despite his encounter, he knocks others for their encounters, claiming them not to be the real thing. That is the pot calling the kettle black. Just because he's had so much trouble accepting his encounter, it does not give him the right to dismiss everyone else's possible sightings. He also bashes Bigfoot investigation, claiming that all they want is fame. While there are some who do pull hoaxes or want attention, there are even more people who have far more knowledge and respect for Bigfoot as a species and have been conducting research for decades, before this man had his encounter. While it is an interesting tale, they never hurt him and this poor man just can't deal with what he saw. A great deal of people can deal with it and he should stick to his shrink to work out the trauma he just can't seem to get over. That is still no excuse to disrespect people like Dr. Jeff Meldrum, Dr. John Bindernagel and other research professionals who take their scientific work seriously.

Loved it but I have believed in Bigfoot since I was a little girl. It would be a dream come true for me. I believe witnesses want to go look for them is because they want to prove to themselves that they really saw them...I think it would be awesome. Your encounter sounded like some kind ritual or maybe the leader is a bully. I believe they are us, they probably have bullies, social groups, bad ones. You said so yourself they could've grabbed you through the window but they didn't. I honestly believe they were sleeping there or they had food buried there or that's their hang out spot and you trespassed. Maybe go back with some friends and leave a gift to say sorry but tell them that because I believe they understand us..maybe better than we understand ourselves. ^ '

A GRIPPING story told by the man who went thru it! Short, but still worth every tiny penny asked for

it. Pay the man!The author wrote this so well that I felt like I was cowering inside that truck with him, seeing and experiencing those dark hours with right beside him!!!!Worth every penny!

This is an interesting quick read. It feels raw and it isn't difficult to follow. The author is believable and easy to understand. I thought there was a little too much focus on how his marriage fell apart and the aftermath of his sighting and not enough on his actual encounter. I like some of the evidence and research he included and I thought it was compelling and interesting. The author does a good job describing his situation and what he saw. You can feel his fear and it is easy to see how this encounter affected him. There are some grammar and syntax errors, but overall it is a good quick read. I did think it was interesting that the author basically said that anyone that wanted to find Bigfoot was crazy and that no one should ever want to have an encounter, but he also said that he didn't think the creature wanted to harm him at all. Seemed like a bit of a contradiction, but an interesting read nonetheless.

Interesting story. Don't know if this was self-published or not, but someone should have proofread it more thoroughly. There are numerous grammatical errors in it. Yes, I know that I'm being picky, but it's really annoying to find these errors. It messes up the rhythm of the read.

I'm a fan of this "genre" so I enjoyed this story immensely. I feel alittle sorry for the author having to go thru something so terrifying that it had such an impact on his life. I started to think of all the "Finding Bigfoot" crowd that would have given their right arm to have this experience! It is fascinating to me that if they wanted to bring harm to him they would have & that if he could get past his fear, he may be able to think of them differently,

I never buy short stories. But this one captured my interest. I liked the author's way of telling/explaining. Short & to the point, not embellishing. He told his aftermath feeling and what he experienced during his encounter.I, too, don't go out In the woods alone at nite.....and it's only my imagination at work.
