Customer Reviews

Loved this book bundle so much I binged it and then after reading it for free kindle unlimited I went and bought it so I can read it whenever I want. Each story builds on the other so it is like reading one long book with rotating POVs. All of the characters are different and loveable (guys and girls). All alpha males, not dominating, just fun and enjoyable with hot sex scenes. I also enjoyed that all of the women were strong, independent thinking, hard working and not catty! A fun family to read about and definitely a hot re-read for me in the future!

Loved each and every story but must say Morgan and Lola's was my favorite. Each tale is filled with Alpha hotness and some spunky in-your-face women. So much humor is woven throughout you will think twice about the witty responses these women come up with. So thrilled this was part of the KU

program. Bravo Ms. Weaver!

What a great collection. Some of it may have been a little repetitive like the first you knew that somehow the heroine was going to be trapped in the clutches of the evil guy as soon as their guard was dropped. The women become stronger because of it and some even handle their own mess.

Worth reading

I love these types of books and I ate this set a little bit better than average. One issue I had was that each woman was in trouble. Problem was after book 1 the problem becomes less and less of the story. By book 6 it was hardly part of the plot. There were many spelling or typing errors which doesn't bother me, but I'm aware it bothers others. I would recommend with the warning there are better out there.

I really like special ops books, but this series was just dull. Hopefully this doesn't spoil anything, but in a couple of the stories the guys were in love with the girls before they even met them! That's not realistic at all. I just couldn't really get into the characters. I read the whole series because I paid for it and figured I should finish it. But I struggled with making myself do it. The last two stories were probably the best ones. I don't really recommend this series though.

This is the second book I have read by this author. I really enjoyed this book. It is about several different men and how they find their true love. There is action, but also a happily ever after.

This was a good series. By the final book I knew that there would be a girl that needed saving and that there would be a lot of sex but it was a good read! I enjoyed the characters and very rarely put this series down. A few typos.

too many writing errors. Don't you have editors or proofreaders?? I enjoyed the characters but so many mistakes distracted from the series.
