## Customer Reviews

What we have here, yet again, is a man, who will never require an abortion, suggesting \_obiter\_dictum\_ to nearly four billion girls and women, about what they may and may not do in their personal, private lives. To be "fair," he realizes it is none of his bloody business and he therefore (one hopes) must know his political spewing (which one can compare to a broken sewer main) should be utterly ignored--- which makes the reader wonder why he bothered sharing his opinion at

all.
