Customer Reviews

Col. John Garnier shot himself in the foot with the title. I discovered "The Worship of the Dead" while researching at seminary. It is actually one of the greatest books of Christendom. The premise is the loss of (corrupt) human life at the Flood of Noah and the invocation of action by evil spirits by Noah's descendents, Cush, Nimrod and Semiramis. Garnier traces the worship of dead personages inspired by this unholy trinity through dozens of religions in dozens of countries under dozens of names as it spread throughout the world -- from ancient times to today -- from Babylon to Egypt to India, Europe to Far East Asia and to your TV set. Col. John explains the forces behind magic, the Nephilim, the meanings of ancient symbols, astrology, superstitions and the pyramids. It isn't a book, it is an encyclopedia. I xeroxed the entire 1907 edition and highlighted it all, then haunted used bookstores for years looking for a copy. I would gladly have paid \$200 for a readable edition. I am so glad Kessinger put it back in print. Yes, you can find the text on line, but you would want the hardbound on your shelf. It is a long, thick read and you would never get through digital. I got two

copies. I'll tell you what, bring it up on line and read chapter 17 (XVII) a couple of times. That alone is well worth whatever the book costs, and you will probably then order the book just to have Garnier's insights within arm's reach. One of the greatest tragedies of our era is the title, *The Worship Of The Dead Or The Origin And Nature Of Pagan Idolatry And Its Bearing Upon The Early History Of Egypt And Babylonia*. It buried a true treasure. All that said, I must note that my understanding of the spiritual mechanics involved has change over the years.
