DEFENDING TIERNY (Gray Wolf Security, Texas Book 1)

Synopsis

TierneyI never wanted to be anything other than a defense attorney. My father was a defense attorney. He was in and out of my life, but when he was there, he talked about how beautiful the law was. I wanted to see it the way he did. But I never imagined following in my fatherâ€™s footsteps would mean finding death threats stuck under my carâ€™s windshield. But it did lead me to Gray Wolf Security and the hot, sexy, former-Navy SEAL who would turn my world upside down and make me see my profession in a new light. Scarred by his sisterâ€™s brutal past, Alexander hated me on sight because of my profession. But that did nothing to tame the almost animalistic passion that sparked every time we were alone together, which was all the time. Talk about defenseâ€¦AlexanderI hate lawyers. Especially criminal defense lawyers. Tierney and I seem to butt heads when it comes to our opinions of the legal system, but despite our differences of opinion and her stubborn streak, I canâ€™t seem to get her out of my mind. And I must get her off my mind. Since I was assigned by Gray Wolf Security to protect her, itâ€™s got to be hands offâ€¦no matter what. David, my boss, has very few rules, but one of them is that operatives may not become involved with their targets. Yet, that one rule is proving very hard to follow. Can I keep Tierney safe and keep my hands to myself? Maybe. But if she comes on to me, all bets may be offâ€¦

Customer Reviews

A great start to a new series by Glenna Sinclair. This is a romance with a lit of suspense. The plot is very well written and the characters are complex but humane. Alexander and Tierny are quite the couple. It is interesting that Tierny's name is from an old movie star's name from the 1950's. Love the name and the movie star. The stories concerning the other characters are very intriguing also. So many stories in development. A very good book. Keep up the good work Glenna Sinclair.

I really like this author. If you haven't read her before, start now. And go back and check out her previous work ... her books are verrry reasonably priced ... which means I can buy them all (which I have!) Thanks for sending David down to the Texas compound - now we have a whole new group of stories to enjoy! This first one is a great start.

Great book! Defending Tierny is a spin-off from the Gray Wolf Security series. This one is taking place in Texas. It was so good to read about all the guys from GWS, especially having David back in this series. Love the story and how all new characters were introduced through out the book. It was very well written and loved the fact that Ms. Sinclair shows us how important family is, even though there were obstacles and problems to face and eventually resolve. Recommend it. I cannot wait for the next book. Thank you.

I really liked the new security book. Of course, I. Am a big fan Wolf Security books. They are all well written with a feel of realism thy o them. Alexander and Tierney Made a good story. Waiting for the next book.

's Sinclair writes great romantic suspense! This book does not disappoint. I love this group of security men and their stories. She has the ability to weave a tale with enough action and love to keep the pages turning.

I really like the way this writer brings each member of the team together , fraught with all the experiences and insecurities each as an individual possess'. The strategically infused protective tactics of each protector to client is intriguing. All in all I really like the camaraderie displayed. Anxiously waiting to begin the next book, in the series!

I love Glenna Sinclair. She always takes me on a new adventure. I am disabled due to Multiple Sclerosis and I spend a lot of time reading. I can get lost in her stories for hours.

This is a spinoff from the original Gray Wolf series. Another well written series with loads of action, suspense and intrigue. This is a series about a security firm who provides protection, bodyguard services. Each story, although someone requires protection , still has its own individual scenario creating a series of intriguing stories. Highly entertaining.
