# The Shambling Dead (Harbinger Of Doom - Volume 7) (Harbinger Of Doom Series)

## Synopsis

Do zombies scare the stuffing out of you? I'm not talking the slow ones that mindlessly stumble around moaning and tripping over their own feet. Those are easy enough to avoid if you keep alert and don't let them swarm you. I'm talking fast zombies. Ones that will run you down, tear you to pieces, and eat you for supper. Ones that keep coming no matter what damage you do to them. Did any such creatures ever exist, except in people's imaginations? Unfortunately, the answer is yes. This seventh volume of the Harbinger of Doom saga reveals the truth about them. Their origin. And the terrible threat that they pose.

BOOKS BY GLENN G. THATER

## **Customer Reviews**

This book did not go in context with his other books in the series. If it was supposed to be a series book, it went off in a totally different direction. Wish I haven't brought it. ALL the previous book were excellent. I wanted to read more. This book "killed" that enthusiasm.

I really like these books but I was a little disappointed that book 8 reverted back to stories of the past instead of continuing on with the story from book 7. I understand the need for covering some of the players past but I was a little disappointing to be reading about individuals who were killed in previous books. Also, what about book 9. I would very much like to finish the story before I meet my own demise.

Do yourself a tabor & save some money. Skip this one & volume eight. The story will resume in volume nine, right where you left off. Seven & eight are useless back story, only needed to lighten your wallet. You can thank me later.

Good short story but outside of the Harbinger of Doom series. The first page starts out with Ob in the boat right where the vol 6 left off but then it reminds him of another time and it totally leaves the current story and doesn't come back.

I have read all of this series and this was one of the least favorite. It made no sense to go back 30 +years in the story it was a confusing situation . The story is good but I think it would have been better earlier in the story !

I really enjoyed the first 6 books, great storey, great character buildup. But to present book 7 as occurring prior to book 1? Especially when readers were left hanging at the end of book 6?Pure money grab...

glad i read these reviews, thought i was the only one who thought they were a bit short. Thater does resort to receptiveness and extraordinarily long descriptions of rooms of character's thought process.....seems more and more backstory than ever as the series rolls on. good as it is, just get on with it! skipping 7+8 as recommended.

The length of these books is getting a little ridiculous. I understand the author deserves compensation for his efforts, and to be fair I really enjoy the story, but \$6 bucks for a book that I can read in a day or two is pushing it. Also, the author stretches what little content there is by employing this little trick, I call it the William Shatner. Trying to make things longer. By using one sentence paragraphs. Concealing lack of content by being repetitive. See all of the empty space to the right of the above sentences? Readers notice these things too. Well if you are still reading this congratulations. I have written more than the author does in some entire chapters of this book. Come on Mr. Thater, give me more content and I might be convinced to buy your next books. Either that or charge me less per book. You write a good tale, but I am starting to feel a little ripped off and will no longer be able to afford reading these books unless you give me more content.
