Customer Reviews

Very concise. Fortunately I have read other material on the subject so it was sufficiently informative. It was enough to tell me I wouldn't want to read the whole thing. Pretty high priced at cost per word.

The short version gives you a nice outline of the original work. It shows some quick useful techniques and indicates that a lot of thoughtful research was done by the author.

Memory enhancement through short vignettes. I learned about this book during the Strum Master Class with Hubert's Smits. Good way to use all your memory.
