Fibonacci Fun: Fascinating Activities With Intriguing Numbers

Synopsis

From "Raising Rabbits" to "Prickly Pinecones" 24 easy-to-use, reproducible activities and projects introduce students to Fibonacci numbers and the golden ratio. Extensions allow the class to explore topics in depth or plan special events around Fibonacci numbers. Topics include geometry, statistics, networks, coordinate graphing, calculators, sequences, number bases, problem solving, and patterns.

Age Range: 10 - 17 years

Grade Level: 5 - 3

Customer Reviews

Wow! What a fun way to motivate kids about math and problem solving! I teach gifted and talented elementary school kids and they LOVE these problems. Started them out with the "bee family tree" and they were begging for more. This will be a staple in my classroom from now on!

Bought this for homeschooling my granddaughters aged 5 & 8 but ended up not using it, as the exercises seem more geared to older children capable of reading and working on their own. Looks as if it might be useful later, however.

Great book with activities that will connect arts and math.
