Customer Reviews

This is a great guide that contains a lot of tips and insights on how to interpret women. I really liked the logical way in which the book is broken down and particularly liked Chapter 5 "Make it safe for her to be vulnerable" because it's helped me gain better insight into how women process information. It also shows how our actions (which sometimes seem like deal breakers to us!) are perhaps not such a big deal in the overall context of a relationship. It helps to show what the real priorities are and how what men see can be completely different than what women see in the same situation. Good advice that can be used over and over again.

Patrick is an amazing writer. His advice is dead on. As a woman myself, I can tell you he has completely gotten inside my head. I love that it's not creepy, scammy, or misogynistic like some of the stuff out there. He just gets women (and men). This book will absolutely help you resolve your relationship issues- or win (and keep) the girl of your dreams.

Men can be crazy too. This right here to great advice, instead of continually finding ways to try to seduce women. Maybe there's something we can fix about ourselves to make us more attractive? I've been on the other side where I haven't been able to keep her seduced every time, so this is helpful stuff.

I think when in relationships or after you have been dating people for a long time you kind of lose sight of what's important and how you should keep making an effort. Good reminder here and I liked the realistic view of what makes a good relationship and keeps the woman interested.

I'm a big fan of this particular author because he gives real advice that is based on observation and human psychology. It's also based on improvement and growth! This book is no exception, as it gives great ways to just become a flat out more attractive guy.

I gave this book to my brother to read, and I guess it gave him a lot of valuable information and insights about how women think as I rarely hear him now complain about how he can't understand his girlfriend (lol)! Oh and of course he said thank you to me 3 days from the day I gave this book to him.

Instead of manipulating women into attraction and seduction, this book talks about great habits and behaviors that actually keep women seduced! I really enjoyed this approach, and hope that this is the direction that dating advice books go towards.

I'm pretty good with women already I have to admit. But I've been hearing about Patrick for some time now on famous dating sites so I thought I'd give this book a try. I'm glad I did because Patrick did not disappoint. I think my pick up game and openers are pretty solid but what Patrick taught me in this book blew my mind. Getting women to like you is easy but how to sustain and maintain it is a whole new ball game. After reading this book, I never have to wonder what a woman is thinking because Patrick lays it out from A to Z. If you ever want to move on from just picking up girls and having long fulfilling relationships then pick up this book.
