The Global War On Christians: Dispatches From The Front Lines Of Anti-Christian Persecution

Synopsis

One of the most respected journalists in the United States and the bestselling author of *The Future Church* uses his unparalleled knowledge of world affairs and religious insight to investigate the troubling worldwide persecution of Christians. From Iraq and Egypt to Sudan and Nigeria, from Indonesia to the Indian subcontinent, Christians in the early 21st century are the world's most persecuted religious group. According to the secular International Society for Human Rights, 80 percent of violations of religious freedom in the world today are directed against Christians. In effect, our era is witnessing the rise of a new generation of martyrs. Underlying the global war on Christians is the demographic reality that more than two-thirds of the world's 2.3 billion Christians now live outside the West, often as a beleaguered minority up against a hostile majority-- whether it's Islamic fundamentalism in the Middle East and parts of Africa and Asia, Hindu radicalism in India, or state-imposed atheism in China and North Korea. In Europe and North America, Christians face political and legal challenges to religious freedom. Allen exposes the deadly threats and offers investigative insight into what is and can be done to stop these atrocities. *This book is about the most dramatic religion story of the early 21st century, yet one that most people in the West have little idea is even happening: The global war on Christians,* writes John Allen. *We're not talking about a metaphorical "war on religion" in Europe and the United States, fought on symbolic terrain such as whether it's okay to erect a nativity set on the courthouse steps, but a rising tide of legal oppression, social harassment and direct physical violence, with Christians as its leading victims. However counter-intuitive it may seem in light of popular stereotypes of Christianity as a powerful and sometimes oppressive social force, Christians today indisputably form the most persecuted religious body on the planet, and too often its new martyrs suffer in silence.* This book looks to shatter that silence.

Customer Reviews

I'm not really certain why I requested this book to review. Reading previews was rather disconcerting, and maybe that's why I wanted to read this book. In our part of the world, as scary as some things may be, we really have no threat of physical persecution. In this book, *The Global WAR on Christians: Dispatches from the Front Lines of Anti-Christian Persecutions*, John Allen Jr. brings this unknown world to reality in ways I had not heard. Is this propaganda? I don't believe so. Yet, we move along remaining ignorant (not always our choice) because this is so under reported by the media. Yet, interestingly, *Newsweek Magazine* found it important to release an issue in February 2012, which featured a cover story by Ayaan Hirsi Ali. Ali has a storied past, and is from Somalia and considers herself an atheist. Yet the cover of *Newsweek* in this issue is below. It's a poignant reminder of the war which is being waged against Christians outside of the United States. What bothered me is the fact that this is well known, but so little is seemingly being done to help the innocent victims, many who are being tortured and left to live in disgusting conditions. I can list many, many atrocities being committed against Christians, some because they are preaching Christ, some because they are simply Christian and they are not following the state mandated governments. Each chapter is separated by region of the country, as Allen gives numerous examples of crimes being committed about Christ followers. As you read this book, you will also learn that in many of the countries where these crimes are being committed, the authorities of the country's in which these are occurring have turned a blind eye to the crimes.

If you are living in one of the Western countries of the world, while reading this blog, then the odds are very likely that you have received very minimal persecution for your religious beliefs. Oh, you may have been laughed at, given dirty looks and perhaps heard obscenities shouted at you. But you

most likely have not been dragged into a concentration camp, tortured or left for dead because of your faith (and if you have been, I'm very sorry for you and pray for you). Yet, these trials are what multiplied thousands of those who call themselves Christians endure daily around the world. And that is the subject of John L. Allen Jr's book *The Global War on Christians*. The title of the book makes no attempt to hide the contents and neither do the chapters. The writer begins with an overview of the subject and sharing stories from areas around the world like Africa, Asia, the Middle East and others. He then spends a few chapters discussing the myths that surround persecution, such as 'Nobody Saw It Coming'. He concludes the volume with a series of chapters which address the fallout, consequences and response of persecution. It's a wealth of material addressing this often overlooked subject and it is an eye opening education if you have never been exposed to these issues. Overall the book is good. It's an important subject that needs addressed by many more writers. However, I did not find the book to be an easy read. It wasn't because of the subject matter, because that is important. I found the author addressing persecution well, but also lumping categories of groups as 'Christian' which some might disagree with strongly.
