Customer Reviews

Somewhat rambling and disjointed. Enough so that the premise suffers.

I've read every single book the hope Reynolds has released and I have learned valuable things from each an every one! I especially liked the information about the luck of a cloudy day. These books have been a real life changer for me. I promise I am not blowing smoke this is the gods honest truth. I encourage everyone even you don't believe in god per say to get this book or any of the others by this author and give some suggestions from within a try. You will not be disappointed!

this is true...all of it... believe ...to the point...just the plain truth!...wonderful...more information will b

infused into both of them....as heaven dictates the pace at which we r to receive the revelations.

I found this book very encouraging. Though it does not offer any answers for the times that life is so hard. It does put life in perspective, as a very small moment in a very long eternity, and it may not always be about me. My hard time maybe God way to help someone else. Some how now I always see that light at the end of the tunnel. And I know I can handle it. I hope this book help you find a way though hard time.

This is a good book to read, it's allot like her other books. They all seem to say the same thing. I don't agree with her when she said " God puts bad people in a shoe box". I believe there is a real hell whether this author believes it or not.
