Customer Reviews

This PUA book is getting a lot of hype, so I thought I'd review it to give an honest perspective. As someone who has read a lot of these books, I have to say this one is not bad - for the price. I mean, for \$3 as long as it's decent that's okay. It's similar to the also recently released How To Talk To Women: Unlock The Secrets To Effective Attraction, Flirting And Girlfriend Getting in that the book is over a hundred pages long, but could easily be made much shorter. This book is probably a little better than that one, though. The best thing about the book is Marni, the author, seems like a pretty nice person. It helps she's a woman, and she clearly cares for her male clients who are struggling to meet girls. Her advice about having confidence, and other similar common sense values an attractive man should have, will help out a lot of socially awkward guys. But this book has a fair bit of bull in it, and too much of it is just email exchanges between Marni and her clients. It reads kind of like a long magazine article at points. I don't mean that as a compliment. What it comes down to is that if you really want to get better at meeting girls, invest a little bit of money into it. \$3 is nothing - you should be willing to spend much more than that. If you want to be cheap get the equally priced

but better She Wants You: The Truth Behind Attraction.
